PROFESSIONAL SUMMARY

Detail-oriented and certified Technical Specialist with hands-on experience in enterprise server, storage, and data center infrastructure implementation and maintenance. Proven track record of deploying and servicing high-performance hardware across Lenovo ThinkSystem, ThinkAgile, IBM Power Systems, and enterprise storage for premier enterprise clients across banking, government, telecommunications, and finance sectors. Proficient in multiple operating systems (IBM AIX, Linux, Windows Server) and virtualization platforms (VMware, Nutanix).

CORE SKILLS

- Hardware & Infrastructure: Lenovo ThinkSystem (SR550–SR950 series), ThinkAgile (HX/MX), IBM Power Systems (Power10), IBM Storage, Lenovo DM/DE Series Storage, NVIDIA Mellanox Switches, Racking & Stacking, Cabling.
- Operating Systems & Virtualization: IBM AIX, Linux (RHEL, Ubuntu, CentOS), Windows Server, VMware ESXi/vSphere, Nutanix AHV.
- Management & Networking: Lenovo XClarity Administrator (LXCA), Cumulus OS, MLNX-OS, Basic Network Routing & Switching.
- Maintenance & Operations: Hardware Diagnostics, Preventative Maintenance, Part Replacement, System Troubleshooting, Firmware Upgrade.

PROFESSIONAL EXPERIENCE

Technical Specialist / Systems Implementation/Post Sales Engineer | PT. BLUE POWER TECHNOLOGY

2022 – 2026 | Jakarta / Bekasi, Indonesia

- Led end-to-end data center hardware implementations, including physical server deployment (racking, stacking, structured cabling), initial provisioning, and OS installation across various client environments.
- Installed and configured diverse enterprise operating systems and virtualization hypervisors including IBM AIX, Linux Distributions, Windows Server, VMware vSphere, and Nutanix AHV.
- Executed hardware troubleshooting, component replacement, and firmware updates for Lenovo ThinkSystem, System x, and IBM Power/Storage hardware, maintaining high uptime and SLA compliance.
- Managed and deployed Lenovo ThinkSystem & Storage solutions for major government and private enterprises including BRIN (Lenovo Enterprise Scalable Infrastructure), BIN, Kominfo, BMKG, CRIF, Lintasarta, Astra Agro Lestari, Home Credit, Toto Indonesia, AXA Indonesia, and BDX Data Center.
- Performed scheduled preventative maintenance and critical system support for IBM Power and Storage infrastructure across financial and public institutions such as Bank BTPN, Pegadaian, BPJS Kesehatan, Jasindo, Badak NGL, and Asuransi Jasa Indonesia.

CERTIFICATIONS & TECHNICAL TRAINING

Professional Certifications:

- Lenovo Certified Data Center Technical Sales
- IBM Power Infrastructure as a Service Solutions Technical Sales – Intermediate
- IBM Power Systems Virtual Server Technical Sales – Intermediate
- IBM Power Systems Power10 Foundational

Technical Product Accreditation & Training:

- Lenovo Data Center Solutions: Lenovo ThinkSystem Server Architecture (SR, ST, SN series)
- Hyperconverged & Storage Infrastructure: Lenovo ThinkAgile HX (Nutanix) & MX Series Appliances, ThinkSystem DM/DE Series Storage
- Infrastructure Management: Lenovo XClarity Administrator (LXCA)
- Enterprise Networking: Servicing NVIDIA Mellanox QM Series Switches, Cumulus OS & MLNX-OS
- Processors: Intel Xeon and AMD Processor Architecture for ThinkSystem Servers Series

EDUCATION

SMK Negeri 1 Lemahabang

- High School Diploma in Computer & Network Engineering (TKJ) | 2019 – 2022
